

# Legal Disclaimer

Important information regarding the nature of our services and the limits of our representations.

Effective Date: March 6, 2025 | Last Updated: March 6, 2025

## IMPORTANT NOTICE

Algocipher Quantitative is a technology company. We build trading technology and software tools. We are not a registered investment adviser, broker-dealer, financial planner, or commodity trading adviser. Nothing we produce, publish, or communicate constitutes financial, investment, or trading advice. Trading financial instruments involves substantial risk of loss.

1. Not Financial or Investment Advice

3. Technology Services Only
4. No Guarantees of Performance
5. Third-Party Content and Data
6. Regulatory Compliance
7. Website Accuracy
8. Limitation of Liability
9. Jurisdictional Notice
10. Contact

## 1. Not Financial or Investment Advice

All content published on [algocipherquantitative.com](https://algocipherquantitative.com), shared through our products (including Radar 61), communicated by our team, or included in any marketing or informational material is provided for informational and educational purposes only.

Nothing on this website or in any of our materials should be construed as:

- Financial advice or investment recommendations
- A solicitation to buy or sell any financial instrument, security, cryptocurrency, or derivative
- A guarantee of any investment outcome or trading result
- Legal, tax, or regulatory advice of any kind

You should consult a qualified and licensed financial adviser, attorney, or other professional before making any investment or trading decisions. Algocipher Quantitative expressly disclaims any responsibility for decisions you make based on information obtained from our website, products, or communications.

## 2. Trading Risks and Past Performance

Trading financial instruments, including equities, foreign exchange, futures, options, contracts for difference (CFDs), and cryptocurrencies, involves a significant risk of loss and may not be suitable for all individuals.

You may lose some or all of your invested capital. Leveraged or margined trading can result in losses that exceed your initial deposit. Market conditions can change rapidly, and no strategy, signal, algorithm, or tool can guarantee profitable outcomes.

Past performance of any trading strategy, system, or signal discussed, illustrated, or referenced in our materials is not indicative of future results. Backtested or simulated performance results have inherent limitations and may not reflect actual trading outcomes due to factors including but not limited to slippage, liquidity constraints, market impact, and execution differences.

You are solely responsible for assessing whether trading is appropriate for your financial situation, risk tolerance, and investment objectives.

## 3. Technology Services Only

Algocipher Quantitative provides software development, technology infrastructure, and proprietary trading tools. Our role is strictly that of a technology provider.

We do not:

- Manage client funds or assets
- Execute trades on behalf of clients
- Provide discretionary portfolio management
- Offer regulated financial services in any jurisdiction
- Act as a counterparty to any financial transaction

Any automation, execution logic, or signal generation built into our technology acts strictly according to parameters and instructions defined by the client. The client retains full responsibility for the deployment and use of any technology we build or provide.

## 4. No Guarantees of Performance

We make no representations or warranties that our technology, products, or services will produce any specific trading results, profits, or performance outcomes. The effectiveness of any trading system, strategy, or tool depends on numerous factors outside our control, including market conditions, broker execution, connectivity, data quality, and user configuration.

Statements describing what our technology "can" do, examples used in marketing, or any case studies shared are illustrative only and do not represent a promise or guarantee of future performance.

## 5. Third-Party Content and Data

---

Our products and services may incorporate, integrate with, or display data, content, or information from third-party sources including market data providers, exchanges, brokers, or APIs. We do not guarantee the accuracy, completeness, or timeliness of third-party data.

References to third-party platforms, services, or providers on our website or in our materials are for informational purposes only and do not constitute an endorsement or recommendation. We are not responsible for the practices, content, or availability of third-party services.

## 6. Regulatory Compliance

---

It is your responsibility to ensure that your use of our technology, services, and products complies with all applicable laws, regulations, and rules in your jurisdiction. This includes, without limitation, securities laws, commodities regulations, anti-money laundering requirements, and any rules imposed by relevant regulatory authorities or exchanges.

Algocipher Quantitative does not provide legal or compliance advice. We strongly recommend you engage qualified legal counsel to assess the regulatory implications of deploying automated trading systems or technology in your specific context.

## 7. Website Accuracy

---

We endeavor to keep the information on our website current and accurate. However, we make no warranty or representation that the content on [algocipherquantitative.com](http://algocipherquantitative.com) is complete, accurate, or up to date. Information on our website may be changed or updated at any time without notice.

We are not responsible for any errors or omissions, or for the results obtained from the use of information contained on our website.

## 8. Limitation of Liability

---

To the maximum extent permitted by law, Algocipher Quantitative, its directors, officers, employees, contractors, and affiliates shall not be liable for any direct, indirect, incidental, consequential, special, or punitive damages arising from:

- Your use of, or inability to use, our website, products, or services
- Trading losses incurred through use of our technology
- Reliance on information obtained from our website or communications
- Errors, interruptions, or failures in our software or third-party integrations
- Unauthorized access to or alteration of your data or systems

This limitation applies whether the claim is based in contract, tort, negligence, or any other legal theory, even if we have been advised of the possibility of such damages.

## 9. Jurisdictional Notice

---

Our website and services are accessible globally, but this does not imply that our products or services are appropriate or legally available in all jurisdictions. Residents of certain countries may be subject to restrictions on the use of automated trading technology, financial software, or related services. It is your responsibility to determine whether accessing our website or engaging our services is lawful in your location.

Nothing on this website constitutes an offer or solicitation in any jurisdiction where such offer or solicitation would be unlawful.

## 10. Contact Us
